

Family Program

We designed this program with your family in Mind in that the Disease of Addiction is a Family Disease and affects the whole Family. It has been our experience that so many times the family feels left out of the process of healing when it comes to Addiction. Whether the addict is in Treatment or not, upon entering our Family program you will have access to your own addiction specialist. We will create a personalized and extensive Recovery Coaching plan to help you learn how to deal more effectively, mentally, emotionally, spiritually and behaviorally in your life with the addict that you love. Whether the Addict is still active in their addiction or newly in recovery. We will be there to help, guide and counsel you into long Term Recovery from the devastating effects of co-dependency and addiction into the happy , healthy family you so deserve. Call us today at 1-888-557-0002.
